

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CATARRH!

CATARRHAL DEAFNESS--HAY FEVER

A New Home Treatment

SUFFERERS are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp to pay postage, by A. H. Dixon & Son, 337 & 339 West King Street, Toronto, Canada.—*Christian Advocate.*

Sufferers from Catarrhal troubles should carefully read the above.

A Shriveled Up Creature!
Dry as a bunch of herbs, face like parchment, hair in thin wisps, hands skinny and bony, a long, thin lipped mouth, eyes small and red, the whole constituting an amalgamation of the cat and the ferret. This uninviting specimen of femininity was brought to this deplorable condition through using poisonous beautifying lotions and deadly cosmetics, in the vain endeavor to acquire what nature had denied her—a clear skin and a healthy complexion. Had this unfortunate woman invested but one-twentieth part of her outlay in Dr. CAMPBELL'S "LIFE RENEWING" ARSENIC COMPLEXION WAFERS, the probabilities are that her portrait to-day would be as ATTRACTIVE as it now is hideous and revolting. And yet she is but 40 years of age. Take WARNING ye who are following in the same ruinous and beauty destroying path.
By mail \$1. Depot 220 Sixth av., New York. Sold by druggists.

AN ADORABLE ARMFUL!
Her complexion was creamy, she
had large, beautiful eyes, shining
with soft brilliancy under arched
brows, lips red as pomegranate
blossoms, between which shone
teeth of pearly whiteness, her hands
and feet were of aristocratic deli-
cacy, while the exquisite perfection
of her figure, the divine roundness of her neck and
the beautiful lines of her arms and shoulders were
of extraordinary fineness and purity. But best of
all she was the possessor of so intelligent and ani-
mated an expression that every man experienced
an irresistible longing to hear her speak and a
ready willingness to perform the Japanese "hara-
kari" for a smile. This lovely and adorable being
acquired these physical perfections through using

Established by EDWARD L. YOUMANS.

THE POPULAR SCIENCE MONTHLY,

Edited by WILLIAM J. YOUMANS.

SCIENCE is rapidly coming to be the controlling force in every field of human activity.

It has developed the clumsy dug-out into the swift ocean steamer, and the slow-going cart into the flying railway train.

Without it man is the sport of the storm-demon; by its aid he predicts and prepares for the approaching cyclone.

Without it the industrial worker was a hopeless drudge; the growth of its applications has multiplied his comforts and increased his leisure.

Without it the race was powerless in the presence of disease; with its help epidemics are disappearing, and better health with long life are secured.

Without it education was an unvarying routine of mechanical repetitions; upon it has arisen an art adapted to the needs of individual minds and to the conditions of modern life.

Without it the workings of society were not understood; with it we are learning the unvarying laws of social phenomena.

Without it fear was the only preventive of evil-doing; with it comes a rational basis for moral conduct.

Similarly, in every department of human activity, it is the great agency of improvement. In its steady progress it touches everywhere and affects everybody. It gives law to the material interests of the community, and powerfully influences the ideas, opinions, and beliefs of men, so that all have an interest in being informed of its advancement.

THE POPULAR SCIENCE MONTHLY is devoted to supplying this knowledge in a form that can be easily understood, and for nearly twenty years has maintained a leading position among scientific journals.

With other illustrations, each number contains a finely engraved PORTRAIT of some eminent man of science, with a BIOGRAPHICAL SKETCH.

The managers of THE POPULAR SCIENCE MONTHLY accept the steadily growing circulation of the magazine, and the large influence it has gained among the more thoughtful and liberal-minded readers in America, as the highest testimonial of approval of its past course. The utmost will be done to keep all its departments up to the highest standard of excellence. Increasing attention will be given to the discussion of economic subjects and other leading scientific questions of the day. During the coming year the magazine will contain a series of papers from distinguished specialists on the agency of science in the growth of the leading industries of the world since the discovery of America by Columbus. A large share of attention will also continue to be given to scientific ethics, and the true sphere of government.

A Skin of Beauty is a Joy Forever.
DR. T. FELIX GOURAUD'S
ORIENTAL CREAM, OR MAGICAL BEAUTIFIER.

PURIFIES AS WELL AS BEAUTIFIES THE SKIN. No other cosmetic will do it.
Removes Tan Pimples, Freckles, Moth Patches, Rash and Skin diseases, and every blemish on beauty, and defies detection. It has stood the test of 37 years, and is so harmless we taste it to be sure the preparation is properly made. Accept no counterfeit of similar name.
The distinguished Dr. L. A. Sayer said to a lady of the haut ton (a patient): "As you ladies will use them, I recommend 'Gouraud's Cream' as the least harmful of all the skin preparations." One bottle will last six months, using it every day. Also Poudre Subtile removes superfluous hair without injury to the skin.

FRED T. HOPKINS, Proprietor, 48 Bond St., running through to Main Office, 37 Gt. Jones St., N. Y. For sale by all Druggists and Fancy Goods Dealers throughout the U. S., Canada and Europe. Beware of base imitations. \$1,000 Reward for arrest and proof of any one selling the same.
